

Appendix 1. Algoritme moeilijke luchtweg volgens de American Society of Anesthesiologists.

Source: 2022 American Society of Anesthesiologists Practice Guidelines for Management of the Difficult Airway (Apfelbaum, 2022).

ASA DIFFICULT AIRWAY ALGORITHM: ADULT PATIENTS

Pre-Intubation: Before attempting intubation, choose between either an awake or post-induction airway strategy. Choice of strategy and technique should be made by the clinician managing the airway.¹
